

Vous venez de trouver une règle mise en ligne par des collectionneurs qui partagent leur passion et leur collection de jeux de société sur Internet depuis 1998.

Imaginez que vous puissiez accéder, jour et nuit, à cette collection, que vous puissiez ouvrir et utiliser tous ces jeux.

Ce rêve est devenu réalité !

Chantal et François ont créé l'Escale à jeux en 2013. Depuis l'été 2022, Isabelle et Raphaël leur ont succédé. Ils vous accueillent à Sologny (Bourgogne du sud), au cœur du Val Lamartinien, entre Mâcon et Cluny, à une heure de Châlon-sur-Saône ou de Lyon, une heure et demi de Roanne ou Dijon, deux heures de Genève, Grenoble ou Annecy et quatre heures de Paris (deux heures en TGV).

L'Escale à jeux est un ludogîte, réunissant un meublé de tourisme ★★★ modulable de 2 à 15 personnes et une ludothèque de plus de 9000 jeux de société.

Au total, 320 m² pour jouer, ripailler et dormir.

BASIC TRIANGLE

Triangle is a game for two players. Choose your colour. Position the board with your colour in front of you and place your 16 pieces on the coloured start triangles.

The object of the game is to take all your opponents pieces or to occupy and so capture one of your opponents start positions.

Pieces are moved in alternative turns by rotation about a point. Hold the piece in contact with the board at the selected point and rotate to fill any vacant space. You may not move backwards and your pieces must not touch along any side. (Diagram A.)

Pieces may also be moved by sliding along any continuous diagonal line formed by the sides of your pieces. After sliding, position your piece in continuation of the slide line. (Diagram B.)

Pieces are taken when a side of your piece touches the side of an opponent's piece. When taken, pieces are removed from the board. (Diagram C.)

INTERMEDIATE TRIANGLE

The object of Intermediate Triangle is to take all of your opponents pieces, or to capture one of your opponents four base triangles which are outlined in black.

You may also slide along any continuous horizontal line formed by the sides of your pieces. Throughout the slide, the direction of the piece is unchanged with the same side in continuation of the slide line. (Diagram D.) A vertical slide may be performed in a similar manner to the horizontal slide.

Note An odd piece, out of alignment with normal pieces, results from a vertical or horizontal slide along an even number of pieces. Odd pieces cannot capture a start triangle, but have special use in both attack and defence. Odd pieces revert to normal after a similar slide move.

MASTER TRIANGLE

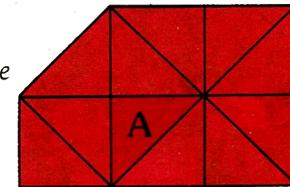

The game for the experts. Intermediate rules apply with the following additions.

Pieces may be moved backwards.

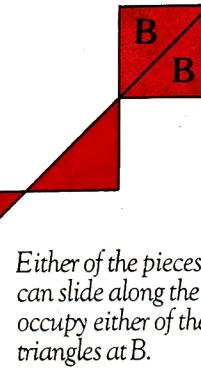

Continuation and combination jumps consisting of any number of slides, are allowed. If at the end of a slide your piece is in a position to start a new slide, then that slide may be made. (Diagram E.)

A

Piece A can move into any of the shaded triangles.

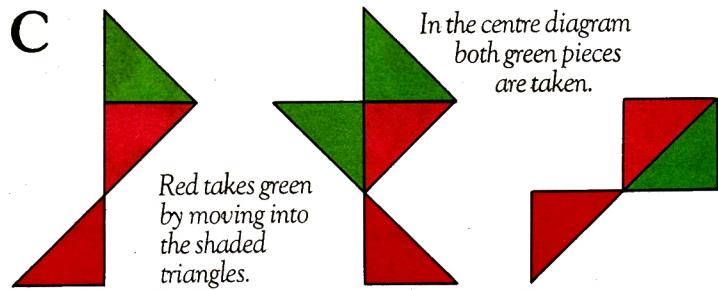

B

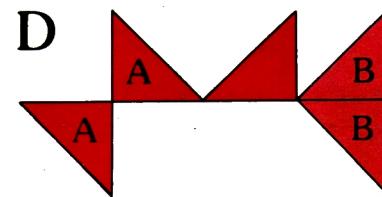

Either of the pieces marked A can slide along the diagonal to occupy either of the shaded triangles at B.

C

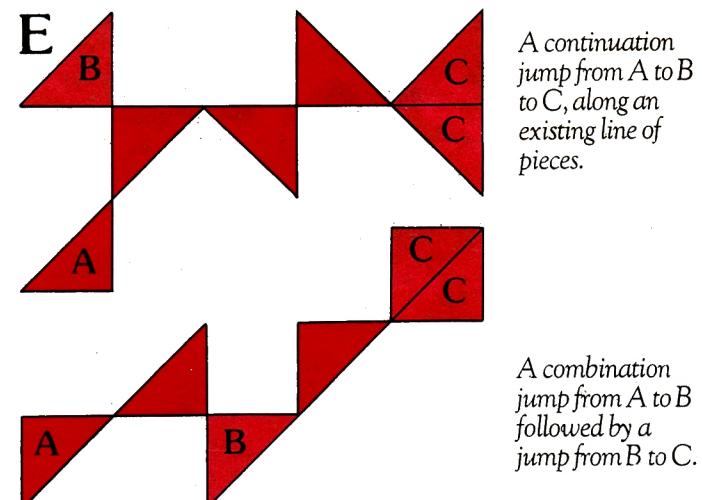

In the centre diagram both green pieces are taken.

D

Either pieces marked A can slide along the horizontal to occupy either of the shaded triangles at B. The same principle applies to any vertical move.

E

A continuation jump from A to B to C, along an existing line of pieces.

A combination jump from A to B followed by a jump from B to C.
