

Vous venez de trouver une règle mise en ligne par des collectionneurs qui partagent leur passion et leur collection de jeux de société sur Internet depuis 1998.

Imaginez que vous puissiez accéder, jour et nuit, à cette collection, que vous puissiez ouvrir et utiliser tous ces jeux.

# Ce rêve est devenu réalité !

Chantal et François ont créé l'Escale à jeux en 2013. Depuis l'été 2022, Isabelle et Raphaël leur ont succédé. Ils vous accueillent à Sologny (Bourgogne du sud), au cœur du Val Lamartinien, entre Mâcon et Cluny, à une heure de Châlon-sur-Saône ou de Lyon, une heure et demi de Roanne ou Dijon, deux heures de Genève, Grenoble ou Annecy et quatre heures de Paris (deux heures en TGV).

L'Escale à jeux est un ludogîte, réunissant un meublé de tourisme ★★☆☆ modifiable de 2 à 15 personnes et une ludothèque de plus de 10 000 jeux de société.

Au total, 320 m<sup>2</sup> pour jouer, ripailler et dormir.

## GAME RULES

- 1 Select a challenge. Each challenge offers multiple hints about the position of some jewels. Note that every piece is unique.
- 2 Combine the hints to correctly place all jewels on the gameboard and find the location of the red diamond. The position of some pieces might not be given, but these positions can always be deduced using logic.
- 3 There is only 1 solution, which can be found at the end of the booklet.

### JEWEL/SHAPE/COLOUR:

The actual piece is identified.  
In this case it's the blue circular jewel.

The shape is shown, but not the colour. In this case the jewel is square, but we don't know its colour.

The colour is shown, but not the shape. In this case the jewel is green, but we don't know its shape.

## SAMPLE CHALLENGE

**HINT 1:** This hint shows the full game board, so we know the exact position of the jewels, shapes and colours shown. Deduction is required to find the locations of the other pieces.

**HINT 2:** This hint shows only a part of the game board. The arrangement of jewel, shape and colour must appear at least once in the solution using the same orientation.

**HINT 3:** This is a negative hint, meaning no blue jewel can be placed on one of the 8 spaces surrounding a triangle shaped jewel.

## SOLUTION

# RÈGLE DE JEU

- 1 Choisissez un défi. Chaque défi offre un ou plusieurs indices sur la position des gemmes. Notez que chaque gemme est unique.
- 2 Placez correctement toutes les gemmes sur le plateau de jeu et trouvez la position du diamant rouge en combinant les indices du défi. Même si la position d'une gemme n'est pas donnée directement, elle peut toujours être déduite de manière logique.
- 3 Chaque défi n'a qu'une seule solution, qui se trouve en fin de livret.

## GEMME/FORME/COULEUR:

La gemme est parfaitement connue. Ici il s'agit de de la gemme circulaire bleue.

Nous savons que cette gemme est en forme de carré, mais nous ignorons sa couleur.

Nous savons que cette gemme est verte, mais nous ignorons sa forme.

## EXEMPLE DE DÉFI

Indice 1: Cet indice montre le plateau de jeu en entier, nous connaissons donc la position précise des éléments montrés. Mais nous devons encore utiliser les autres indices pour déduire certaines informations.

Indice 2: Cet indice montre seulement une partie du plateau de jeu. En respectant l'orientation de l'indice, cette association d'éléments doit apparaître au moins une fois dans la solution.

Indice 3: Ceci est un indice négatif. Il signifie qu'AUCUNE gemme en forme de triangle ne peut avoir une gemme bleue à côté d'elle (c'est-à-dire sur les huit cases qui entourent la gemme en forme de triangle).
