

Vous venez de trouver une règle mise en ligne par des collectionneurs qui partagent leur passion et leur collection de jeux de société sur Internet depuis 1998.

Imaginez que vous puissiez accéder, jour et nuit, à cette collection, que vous puissiez ouvrir et utiliser tous ces jeux.

Ce rêve est devenu réalité !

Chantal et François ont créé l'Escale à jeux en 2013. Depuis l'été 2022, Isabelle et Raphaël leur ont succédé. Ils vous accueillent à Sologny (Bourgogne du sud), au cœur du Val Lamartinien, entre Mâcon et Cluny, à une heure de Châlon-sur-Saône ou de Lyon, une heure et demi de Roanne ou Dijon, deux heures de Genève, Grenoble ou Annecy et quatre heures de Paris (deux heures en TGV).

L'Escale à jeux est un ludogîte, réunissant un meublé de tourisme ★★☆☆ modifiable de 2 à 15 personnes et une ludothèque de plus de 10 000 jeux de société.

Au total, 320 m² pour jouer, ripailler et dormir.

RÈGLES DU JEU

- 1** Retirez l'ensemble des pièces du plan de jeu et choisissez un défi. Placez les pièces aux positions indiquées par le défi à l'intérieur du plan de jeu.
 - A)** La plupart des défis montrent les pièces de jeu en entier. ATTENTION : la position correcte des engrenages de chaque pièce est très importante. Veillez à toujours prêter attention à ce qu'une pièce au même endroit dans deux défis présente correctement ses engrenages. Ceux-ci doivent être aux bons endroits pour pouvoir résoudre le défi.
 - B)** Les défis de niveau STARTER indiquent uniquement la forme de toutes les pièces, pas la position des engrenages. Parfois, la couleur d'une pièce n'est pas révélée (ces pièces sont de couleur grise). Notez que certaines pièces ont une forme identique, mais que la position et le nombre de leurs engrenages varient!
 - C)** Les défis de niveau MASTER indiquent uniquement la position de tous les engrenages. Vous devrez en déduire la position de toutes les pièces de jeu.
- 2** Placez toutes les autres pièces à l'intérieur du plan de jeu afin de créer une chaîne d'engrenages qui reliera les deux molettes entre elles. Validez cette chaîne en actionnant l'une des deux molettes et en constatant que la deuxième tourne. Une chaîne minimum de sept engrenages est nécessaire pour relier les deux molettes. Il n'est en revanche pas nécessaire que tous les engrenages tournent. Seules les deux molettes latérales du plan de jeu doivent in fine tourner pour valider la réussite du défi.
- 3** Il n'y a qu'une seule solution, que vous trouverez à la fin du livret de défis.

GAME RULES

- 1** Remove all the puzzle pieces from the game board. Choose a challenge. Place the indicated puzzle piece(s) on the gameboard as shown in the challenge:
 - A)** Most challenges show the position of one or more puzzle pieces. NOTE: the correct position of the gears in these puzzle pieces is very important. Sometimes a puzzle piece fits on the same place on the gameboard with its gears in a different position. The gears must be in the correct position to solve the challenge.
 - B)** STARTER level challenges show the shape of all pieces, but not the position of the little gears. Sometimes the color of a piece is also not revealed (these pieces are shown in grey). Please note that several pieces have an identical shape!
 - C)** MASTER level challenges only show the position of ALL THE GEARS. You have to deduce the position of the full puzzle pieces.
- 2** Place all the other puzzle pieces on the gameboard. You are not allowed to change the position of pieces indicated in the challenge! To solve the challenge all pieces should fit AND create a connection between the big gears (wheels) on the right and left of the game board. You can easily check this by rotating one of the bigger gears and see if the other big gear also rotates. You need a minimum of 7 small gears to make a connection (often more). It is not necessary that all small gears rotate, only the big gears (wheels) on the sides of the gameboard need to rotate.
- 3** There is only 1 solution, found at the end of the challenge booklet.
